

DeepFlo® Series 70 – Full Width Roller

DeepFlo® Series Full Width Roller Flow Systems are designed to accommodate different sizes of stock stored on the same shelving system. The full-width rollers allow for large and small carton and pallet items to be integrated into one system. This is beneficial to warehouse facilities that store a variety of different products.

DeepFlo[®]
STORAGE
TECHNOLOGY

DSS Pallet Flow Storage Technology is the fastest and most effective system for dynamic warehousing. These systems facilitate the distribution of assorted products. No other warehouse distribution system is easier to manage and provides an ROI in as little as 18 months. Dynamic Storage will help you with your warehousing needs providing customer service and the experience to back up what we do.

Plastic pallet use is increasing especially in the Food Industry due to the desire to reduce contamination and the ability to wash pallets.
