

DeepTrack® – Carton Flow

DeepFlo® DeepTrak® Carton Flow is specifically designed to accommodate all types of products. When incorporated in a complete system, DeepTrak® Carton Flow is capable of storing different weights and sizes in the same system.

www.dynamicstorage.com

DSS Pallet Flow Storage Technology is the fastest and most effective system for dynamic warehousing. These systems facilitate the distribution of assorted products. No other warehouse distribution system is easier to manage and provides an ROI in as little as 18 months. Dynamic Storage will help you with your warehousing needs providing customer service and the experience to back up what we do.

The Roller centers and track width depends on:

- Carton Weights
- Carton Size
- Bottom conveying surface and rigidity of the carton

DeepTrak® Construction

- Galvanized Side Frames are 2-3/16" high x 14 gauge
- Roller Nominal Lengths: 6", 9", 12" and 15"
- Rollers are 3/4" diameter Aluminum
- Axles are 3/16" galvanized steel
